- Post meeting update: Three options have presented themselves since the meeting (i) E-Alert on single stream, cardboard recycling options and town wide collection system (ii) Anneli will craft holiday cardboard and holiday gift wrap recycling tip and (iii) The Treasurer reports that he can insert a 'buck slip' in the regular tax and excise tax mailings (just enough weight to spare to permit) - He suggests that the DPW/ARC target the vehicle excise tax mailing - ca. 33,000 printed (color) buck slips would need to be in his office by mid-Jan - The group will discuss design and content at December meeting.
